## *Our* Story

### How we came to be

When Dad & Mom first started selling lawn furniture in the early 90's, treated wood and cedar were the only quality products on the market. During our 30 years in business a lot of changes have taken place, and the materials used to build quality outdoor furniture have changed as well.

Our Poly outdoor furniture is made from recycled plastic. It is the product of years in research and development to provide you with the most comfortable and longest lasting patio furniture on the market today. All of our outdoor furniture is made right here in the USA and is backed by a limited lifetime warranty.

In many ways, our quality products are a representation of hard work ethics, and good values that Dad & Mom have taught us over the years. It's these good values that continue to drive us in treating each customer the way we would like to be treated ourselves. We look forward to serving you.

-Elvie Martin

# 10 Reasons to Buy Northwood Outdoor Poly

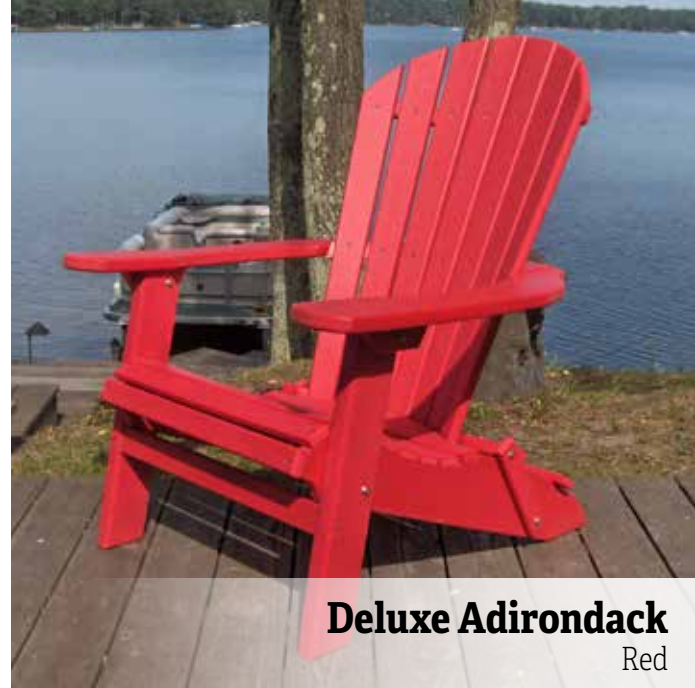

- 1. MAINTENANCE FREE.** Never needs to be stained or painted.
- 2. ENVIRONMENTALLY RESPONSIBLE.** Manufactured from recycled plastic. Great for you, great for the planet. Made from milk jugs, water, and juice containers. Truckloads of landfill and ocean bound plastic bottles are recycled and transformed into genuine POLY lumber which is then used to construct our wide array of all-weather furniture.
- 3. DOES NOT ROT.** No rotting, splitting, cracking, splintering, peeling, or checking.
- 4. FADE RESISTANT.** Our poly has UV stabilizers added to protect the color and integrity of the HDPE. Although all things do fade, the poly fades or weathers at a very slow rate. Brighter colors are just a bit more susceptible to fade.
- 5. STAINLESS STEEL FASTENERS.** All fasteners are Stainless Steel for a long life.
- 6. 100% POLY.** Our Poly is high-density plastic lumber and is a solid, non-hollow, foamed recycled plastic. No wood fillers used. It is non-absorptive, impervious to most chemicals, solid color to core, durable, flame resistant.
- 7. COMFORT.** We design our chairs with comfort in mind, including contoured backs and seats and larger, roomier styling.
- 8. STYLING.** Twenty-five exciting colors to choose from, or two-toned at no extra cost.
- 9. VALUE.** At Northwood, our pricing policy is very competitive and it is our goal to provide a superior product at a better price.
- 10. MADE IN THE USA.** Both the raw material and the manufacturing are done in the USA.

## *the* Adirondack Collection an all-time favorite

Our classic Adirondack Chairs feature a contoured seat and a curved & angled back for maximum comfort. Historically, the Adirondack seating position is extremely relaxed and laid back. Our customers frequently tell us; "your chairs fill up first because of the comfort."

We combine new world technology and materials with old world workmanship to bring you heirloom quality products. So, lean back, soak up the sun and enjoy a moment of comfortable relaxation.

**Lakewood Adirondack**  
Nutmeg / Black

**Regular Adirondack**  
Coastal Gray / White

**What is the difference between the Regular and the Deluxe Adirondacks?**

The deluxe has a 7-slat back (vs. the 6-slat of the regular). It features a higher back and a deeper contour, adding an extra level of comfort.

**Do All the Adirondack Chairs Fold Up for Storage?**

All the Adirondacks, except for the Lakewood Adirondacks, are easily folded and stackable to make storage a breeze?

**Regular Adirondack Chair**  
30" wide x 35" deep x 37" high  
Seat: 22" wide x 18" deep

**Deluxe Adirondack Chair**  
32" wide x 35" deep x 39.5" high
